Weigh-in-motion (WIM) technology is used to measure the weight of vehicles as they travel over a roadway. This information can be used for a variety of purposes, including traffic monitoring, road safety, and pavement design.

The 5th International Conference on Weigh-in-Motion of Heavy Vehicles will provide a forum for researchers, practitioners, and policymakers to share their knowledge and experience in the field of WIM technology. The conference will feature a variety of technical sessions, workshops, and demonstrations.

## **Topics**

The conference will cover a wide range of topics related to WIM technology, including:

- WIM sensor technologies
- Data collection and processing
- WIM applications
- Policy and regulation

## **Important dates**

The important dates for the conference are as follows:

- Abstract submission deadline: 15 December 2022
- Paper submission deadline: 15 January 2023
- Early bird registration deadline: 15 March 2023
- Conference dates: 30 May - 1 June 2023

## **Registration**

Registration for the conference is now open. The registration fee includes access to all conference sessions, workshops, and demonstrations, as well

as a conference proceedings.

To register for the conference, please visit the conference website.

## Contact

For more information about the conference, please contact the conference secretariat at [iste339@tecnico.ulisboa.pt](mailto:iste339@tecnico.ulisboa.pt).
