

Manual Transmissions and Transaxles: Classroom Manual and Shop Manual Spiral

Manual transmissions and transaxles are a type of automotive gearbox that allows the driver to manually change gears. They are used in a variety of vehicles, including cars, trucks, and motorcycles. Manual transmissions are more efficient than automatic transmissions, but they can also be more difficult to drive.

Today's Technician: Manual Transmissions and Transaxles Classroom Manual and Shop Manual, Spiral bound Version by Jack Erjavec
