

# Third International Conference on Artificial Intelligence and Security (AIS 2024) Held as Part of the 23rd HCI

The Third International Conference on Artificial Intelligence and Security (AIS 2024) was held as part of the 23rd International Conference on Human-Computer Interaction (HCI 2024). The conference brought together researchers, practitioners, and policymakers from around the world to discuss the latest advances in artificial intelligence and security.

The conference was held in Toronto, Canada, from July 19-23, 2024. The theme of the conference was "AI and Security: Challenges and Opportunities." The conference featured a keynote address by Dr. David Gelernter, a computer scientist and author who is known for his work on artificial intelligence and security.

The conference also featured a number of workshops, tutorials, and panels on a variety of topics related to AI and security. These topics included:

- AI and cybersecurity
- AI and biometrics
- AI and surveillance
- AI and privacy
- AI and ethics

The conference was a great success, and it provided a valuable opportunity for researchers, practitioners, and policymakers to share their latest work and insights on AI and security.

### **Conference Highlights**

Some of the highlights of the conference included:

- The keynote address by Dr. David Gelernter
- A workshop on AI and cybersecurity
- A tutorial on AI and biometrics
- A panel discussion on AI and privacy
- A poster session featuring the latest research on AI and security

The conference also featured a number of networking opportunities, including a welcome reception, a conference dinner, and a closing reception.

## Conference Impact

The conference had a significant impact on the field of AI and security. The conference brought together leading researchers, practitioners, and policymakers to discuss the latest advances in AI and security. The conference also provided a platform for sharing new ideas and insights on AI and security.

The conference is expected to have a lasting impact on the field of AI and security. The conference will help to advance the development of new AI and security technologies. The conference will also help to raise awareness of the challenges and opportunities of AI and security.
